Subject: Projector Project

Good Day Boss

As per your request the LSJ Projector will be removed and shipped to Osbee for evaluation. The quote for its repair will be forwarded along with a completion date for your approval once the problem has been identified.

Please advise if this the course of action I should proceed with?

As per your previous email. Celeste Peralta, Sony Concierge that provided the Zorro Projector is no longer with the company, but with Rich's help we are getting a new concierge and a quote for a Sony 4k Projector for your review.

Regards

JRuan
