can we have these investments made in a new vehicle that bill would own and you would have a put and call on 30 % of the shares. strike price on the call would be total investment increasing by 5 % per year. exercisable at the end of each year. and a right to put the call to bill or affiliate - value to be determined by agreed upon third party, . this would be off line as to anyone in the co. non salary , no HR, non cancelable. .
