Subject: Re: postdoc prize

we will be changing the total to \$10K.. I am also changing the wording about eligible depts to read:

"Eligible Disciplines: We encourage nominations for junior scholars working in all fields relevant to Origins. While all fields will be considered particular emphasis will be placed on the following areas:

anthropology, astrophysics, biological sciences, chemistry, complex systems, cosmology, economics, engineering, geology and planetary science, mathematics and statistics, neuroscience, paleontology, psychology, physics, sustainability.

any areas you suggest adding?

nice talking..
coincidentally, just after we called I got the draft poster (will need some revision) for the postdoc prize.. Some questions.. We could raise stipend to 10K to blow all others out of the water if you want to support it.. Also, as is, it will cost probably about \$2-5K to advertise with 1/8th of a page in science and nature.
Anyway, your comments would be useful..

Lawrence
