Take on a creative project this summer. We dare you. Tackle something new at work, break out the acrylic paints, or start writing that novel. There's no time like the present.

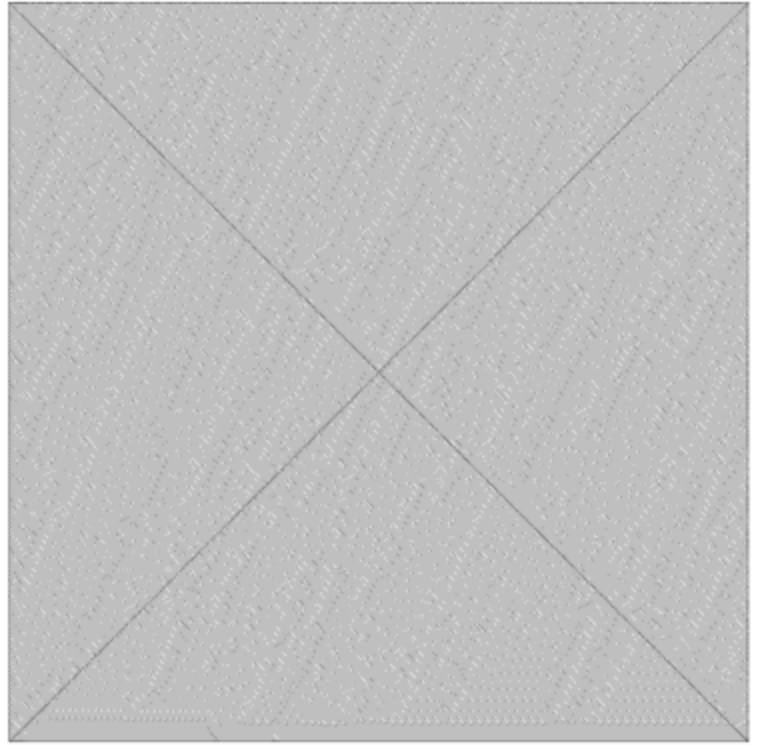

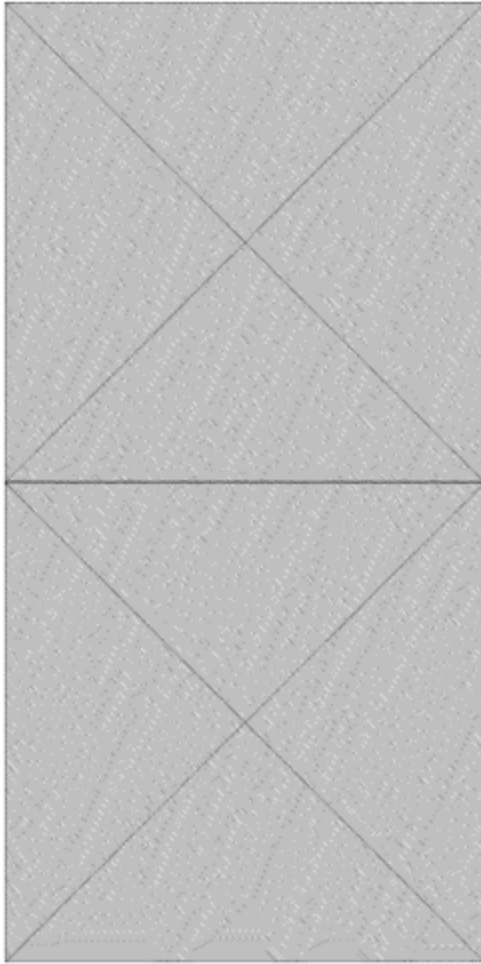

But before you get started, make sure your workspace is primed for productivity. Get organized with imaginative storage bins, and surround yourself with inspiration, whether it comes in the form of an encouraging throw pillow or a colorful art print. Set the mood with a modern chair and desktop supplies just begging to be used. And then settle in for a long and prolific summer.
