Subject: Re: NET site edits

Hi Tyler,

Let's pin down an article topic for Jeffrey by tomorrow. Can I do AI in Ethiopia? Or else I can look at what MIT's AI lab is working on since Jeffrey funds that from time to time.

Let me know,

Ok great - JE I want you to approve site when we speak next I will walk you through let me know when

Forbes and more ready also if you are. I know why last one failed now will explain.

[REDACTED] we will do edits by Friday morning latest

Hi Tyler,

Darren's office got back to me. The foundation will have a d/b/a called Jeffrey Epstein VI Foundation. This will allow some ein site capacity-- but not substantial since I don't have permission to use the 990 form or a modified version of it. I need this to get onto the Foundation Center and its subsidiaries. They are the most prominent/visible online org for foundations. I will find out tomorrow again from the Foundation Center exactly what info they would show on the 990 and what they block out.

The NET site looks great. I have a few edits/ comments. Attached are 4 docs:

- my edits
- the AI Projects page that was left out.
- the About photo for Jeffrey.
- the AI Homepage photo aligned left. This could be lightened up a bit.

let me know if the photo resolutions are OK.

Thanks!
