Subject: Re: value

That sounds like a fortune cookie. Even if we understand the difference between creating and capturing, how does that help us optimize delivering of interesting technologies to ourselves (and society)?

<http://demotivation.us/the-less-you-have-1259392.html>

Is the point that

- 1) Many scientists merely capture value that is already in Nature?
- 2) Businesses capture value that scientists create?
- 3) Both are needed, but one is more rewarding?

I spoke to Peter Thiel, he mentioned that he thought the issue for top scientists was understanding the difference between creating value and capturing it.
