Subject: Gut

Im in Dhaka where the foremost diarrhea institute is located (ICDDR,B)

Fascinating - everything about poop and gut but not much in the microbiome.

This would be the place to investigate and do cool things as it is both smart and also super cheap. Super duper cheap

If anywhere could identify strains of nonpathogenic bacteria for use as probiotics or even designer probiotics this is the place.

Should consider it!

Academic institutions should count as charitable equivalents for grant making purposes
