Rich,

Just FYI, I'm in the progress of getting bids for a number of projects that you will get over for approval soon;

1. Lunch room: construction of drywall partitions and insulation. Relocation of existing AC unit
2. Rigid frame metal building to enclose out trash container area (per JE request)
3. Pallet racks for landscaping materials storage in tunnel
4. JetSki dry docks for existing dock
5. Roof over boat trailer storage area. Rigid frame metal construction. Potential location for solar panels

You will get a detailed description when the bids arrive

Best

John
