Rich mentioned that we are also going to do the hallway so that we do not see a difference between the hallway and the start of all the rooms.

But how far do we take it in the hallway??

We don't want the seam to be at the entrance of your bedroom.

Should we do everywhere? Or put the join at the door at the top of the stairs that closes the guest rooms from the staircase. Or at the first door to your room (which is not ideal because you may see it every time you go to your room)
