Tribeca Hacks <Story Matter>
Tuesday, April 8th, 6:30 – 8 PM
The Gallery

Be the first Stateside audience to hear a recap of Tribeca Film Institute's "Story Matter" – a unique project that paired scientists with filmmakers for a weekend hackathon at the home of the Higgs Boson—CERN, Switzerland. The collaboration challenges our attempt to explain the origins of life by translating and formulating new story lines into innovative technologies. Guests will have the opportunity to hear about the process from two CERN hackathon participants (one scientist and one multi-disciplinary project participant), Opeyemi Olukemi, the TFI Manager of Digital Initiatives, and Neal David Hartman, the artistic director of CineGlobal Festival at CERN. Ingrid Kopp, TFI's Director of Digital Initiatives, will moderate the panel.

110 E. 25th Street
New York, NY 10010
