Morning Rich

I am sorry I didn't cc you on the email to JE as I had said I would.
I told him the samples are there and asked him to take a look.

[REDACTED] has 2 carpet samples. One from Marc Sacco and one from ABC.
Janusz and rich think the carpet came from Sacco and [REDACTED] thought maybe ABC. Both differ from ours slightly in color.
Marc Sacco thinks our current one in the house is his. He sent me the following after seeing a photo of his sample lying on our carpet
'This is a natural Berber type yarn. Its not dyed to match and the color changes every time it is made. What is possible is if you can cut a piece from the existing, we can check for the closest dye lot and use that for production '
Let me know how I should proceed
And also if you have a moment to have a quick look at the rooms to check if you agree that they should all be done.
