Lesley -
First, THANK YOU again! You're great at your job and I benefit significantly from that kindness and greatness. I appreciate it! It makes a crazy schedule and long travel SO much easier!! Of course, HUGE thanks to Jeffrey!

Second, JE and I got very little time together and he mentioned he wanted to Skype this weekend. This weekend is rough for me because I'm with high school kids and robots, working as a judge at Dean Kamen's FIRST Regional Robotics Competition in Boston. Back in Seattle next week, and the weekend after this one - April 19-20, that could work. ALSO, I don't know if he's going to the Media Lab open house -- I will be in Boston 4/22-25. He and I can grab a little time there! And Boris, Barnaby, and others will also be there.

F - copying you on this for your entertainment!
