Jeffrey,
attached is work scope for Boeing Mx visit.
may I have your approval for Rich to Wire 50% payment induction payment?
amount \$207,296.00 (this includes the \$30,000 labor to remove and replace #1 and #3 engines)

quick break down:
\$98,000 C check
\$98,000 for squawks found
\$30,000 remove and replace Pod engines
AD/SB due \$56,755.00
Parts \$56,784.00

is this approved?

thank you,
Larry

The engine changes are part of the quote, they are listed under the additional fixed costs for the 1 and 3 engines, the R and R, rigging, test runs, as well as all preparation and handling for shipping.

I can remove the battery overhauls, we typically utilize a shop battery here to operate the aircraft (eliminate battery deterioration if a switch is left on etc... during maintenance) and then we inspect and deep cycle the ships battery so you go out with a fresh battery.

Hi Scott,
You can delete the Main Battery overhauls. I didn't see the R&R and related tasks for engines 1 and 3? Is that included, or a separate proposal?
The 100 mhr. cap is good.
Larry

Larry,

Please find attached the induction invoice for N908JE along with your 2014 SOA. The invoice covers the 50% induction payment as well as the costs for the Boeing SB Top Kit.

Thanks, and have a great day.

Hello Scott,
I'm planning on bringing the Boeing to Brunswick on Monday, March 3, to start the inspection can you provide an input depaut invoice for the input money that I need to pay you to get the ball rolling thank you

Attached is the pricing for the c check and all ADs. I will put together the pricing for the additional items Glenn sent and forward that on.

Below is the pricing for the SB kit for compliance with AD 2009-05-03 (SB 727-28A-0128 fuel boost pump GFI relays). These materials for the GFI kit are not in the C check number in the bid. We have completed about 13 of these modifications already and have the long lead time parts in stock. So we won't have any lead time issues.

<u>Part Number</u>	<u>Description</u>	<u>Cost per</u>	<u>QTY</u>	<u>Total</u>
65C38468-15	TOP KIT	\$25,900.00	1	\$25,900.00
KDAG-X4F-001	GFI RELAYS	\$2,880.00	8	\$23,040.00
61-12905-51	SUPP.HARDWARE KIT	\$225.00	1	\$ 225.00
BACC45FN24- 43P6	CONNECTOR	\$69.00	3	\$207.00
BACC45FN24- 43P9	CONNECTOR	\$72.03	3	\$216.09
BACC45FN24- 43P10	CONNECTOR	\$72.03	3	\$216.09

Scott,
Please see Glen's additional items to get 908JE through to it's next "C" check after this one.

Hi Larry,

I've attached a report listing those items that will not make it to the next check in Feb 2016. These are items that can be done during the 2A next year or done at Stambaugh as an AWR. Everything else is in the package I already put together.

Glen

Hi Glen,
Can you please build me an updated maintenance package for 908JE. Let's look at cleaning it up for 24 months if we don't get into anything additional major. We are going to do the no.1 and 3 engines at this time as well.
Mike Mijer will be contact you for engine information on the 1&3 . It is OK to forward whatever he requests. Looks like the Boss is willing to dump some money back into the Ole girl.
Call me with any questions or to discuss the package. The aircraft will be going to Stambaugh within the next week.
Larry
