Hi Jeffery,

Sorry for the delayed response. I hope you enjoyed the rest of your time in Vancouver. Thank you so much for hosting me and introducing me to so many people. I also greatly appreciate all your advice (...and I will probably be asking for more this summer). I can't express how great it is to have your support in all of this.

Thanks for forwarding Krauss's papers -- they are very cool; definitely an interesting time to be studying gravitational waves!

Thanks again for everything,

Alexa
