Would love the most the public buildings and spaces, commercial building, but any kind of projects would be great, never too much of studying and learning. Here in NY even residential-all kind of architecture is complex and advanced, any projects to see from more close would build and develop me.. Would be great experience!

i know you can get where you want to be. i am also aware that you share your sisters view that lituanian attitudes will get you there. they will not. . there are very few lithuainzn biz people in the states that are succesfful, your culture is a hindrance as it is so rigid. in a country with so much uncertainty people cling hard to old beliefs as at least they don't change. If I can make your stay in ny more productive i am wiling to. woudl you like to see ssoem arch itecture firms schools projects. ? ? I have little interest in the modeling biz , it is old thinking
