Jeffrey,

The brand of converter that you have in your Bell is Astron. We installed Ameriking. I doubt there is any measureable / significant difference in the consumption / output efficiency of the two units.

Eric and Jay,

The loads affected are as follows:

Left Main DC 9.56 Amps Available Currently

Right Main DC 13.58 Amps Available
Currently

IF YOU REMOVE THE ADDED 24 to 12vdc
Converters (Two) 2 Each you will then have:

Left Main DC 9.56 Amps

Right Main DC 73.58 Amps

The cabin 60hz Converter has no more
available power to provide, you have 25

Amps connected to this for LH and RH
Outlets and Microwave Oven.

Thanks,

JIM
