Good morning Jeffrey,

We are working on a solution for your entertainment system and switching. We have already spoken with vendors who are identifying opportunities for us to present to you.

With regard to shades up / down, this is already scheduled with Larry and the vendor.

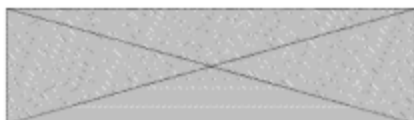

Once Larry sends us the gaspers we will send them directly to our metal plater.

We will need the aircraft to troubleshoot the upwash and downwash lights.

We provided all of the carpet information to [REDACTED] a while ago.

Please let me know your thoughts about routing the vertical flap on the lid - shape, approx size? We presented you with a half moon that you did not like.
