Subject: converters

Eric,
ASTRON is Aviation company also:
we have a ASTRON converter installed in the Bell430, the Chief Inspector from Bell Helicopter is with me in St Thomas, they have used ASTRON products for 24vdc-12vdc and the 24vdc-110vac in helicopter entertainment systems, these converter are not expensive, under \$2000 is what I heard, Correct me if I'm wrong, aren't we driven by AMPS drawn in a DC system, not watts?., check this out and call me when your up and running,.

thx
Larry
