Rich

I was informed by Verizon that FIOS is currently unavailable for 9 E 71st . They are inserting cables to avail this location for FIOS. This can take a few months to have it available.

Verizon will send me an email when FIOS becomes available.

Verizon FIOS offers the following packages:

50/25 bandwidth (download/upload) \$170 per month plus surcharge and taxes

75/35 bandwidth (download/upload) \$190 per month plus surcharge and taxes

150/65 bandwidth (download/upload) \$250 per month plus surcharge and taxes

300/65 bandwidth (download/upload) \$340 per month plus surcharge and taxes

each package includes full TV package, 2 phone lines with unlimited nationwide calling
(\$50 for each additional Line with unlimited nationwide calling)

Most of the work will be done from outside the house. The technician will have to enter the house just to set up the terminal connection to the outside lines, and setup the wireless router.

Also, Jeffrey will be able to keep his current telephone numbers.

Jermaine, will find out whether there will be an issue of integration of CITRIX with FIOS

Harry
