Jeffrey,

After many hours of hunting down leads, the air gasper for the Gulfstream G650 is manufactured by Birk Aerosystems in Garden Grove, California.

I spoke to Connie Birk (partners in the business with her husband) and she informed me that the gasper they produce for the G650 is proprietary to Gulfstream only. Further, it would not work in any other Gulfstream but the 650 as the air duct system in the 650 is a unique design and has certain flow features built right into the duct.

We spoke a bit and she said that what we need is "poppet style" gasper to handle the flow (same as the one I showed in a prior e-mail).

Poppet Style Air Gasper - EMG04

Poppet type air gasper designed to complement EMTEQ's reading and dome lights.

- 2" diameter

- Poppet Type, Wemac Style
- Easy installation and operation
- No air leakage or noise
- Custom plating available
- Various plenum cap and hose port sizes available

I am trying to get samples here for Thursday to assess.
