fun and a promising beginning . re currency. think of linked in stock as a form of currency.
what sets it value, where is the trust component. it is for stockholders rather than stakeholders. .
reputation etc. history of banks required a guarantor. the bottom up still needs it . it was not
that gold was limited it was in essence the guarantor. (agreed misguided)
2. eco system vs organism vs intelligent life. . eco includes non living things. the metaphor if
used for linked in needs definitional boundaries.
