Ok... just talked with Tony Shepherd, CEO of Choice Wireless.

Choice is owned by my friends company ATNI. It is a tiny bit for them as they are just selling one of their telco's to ATT for 750m. Michael was kind enough to help out here.

They will give you a 10mbps direct link onto the fiber connections, I think he said \$75/month/mpbs but I didn't catch that. This should be a great connection. It is unshared – which means it is a real link into Miami.

I will send introduction Jermaine, if this is of interest, and then you can figure out the routing between Choice's office and Jeffrey's island. You may want to run your current link alongside this one for a while.

Let me know...

Hope all is well,

Greg
