1 if the foot rest are square do we have enough room on floor near vent. - YES

2. we should add some leather between back and seat so that when reclined things cannot fall back into mechanism, WILL DO

3. do we have speaker grills and have better sound if so where? , Sub woofers will be installed in the fwd and aft sides of the credenza as discussed. The speakers (most likely eight (4 per side)) really need to be installed in the PSU's to distribute even sound throughout the cabin. We will make custom perforated grills and then paint them to match the ultrasuede fabric on the PSU's.

we should make extra carpets between seats. WILL DO
