Subject: important

it would be helpful, to have a more detailed presentation that details what you said was at least 100 million in firm commitments that mort has obligated these trusts to invest either now or in the future
each trust should not only have its legal restrictions but its corpus , realized and unrealized tax positons liabilityes INCLUDING committments to invest .. Thank you for organinzing what you have so far, and i await the calculation of how much in fees commissions and overrides have been paid out , as well as a comparison to benchmark returns for the each trust and investment category,
