To: Roy Hodges <[REDACTED]>

1. 2008 Rock Crusher - bought in 2010 for \$62,800 - recommend ask \$40K - accept \$30K - will not work on a machine smaller than a 325
2. 2001 Dump Truck - bought in 2007 for \$27,750 - recommend ask \$7K - accept \$5K - current repair is a clutch - purchased re-manufactured one for \$480 - see other problems in the near future - truck was geared for highway use, not the conditions of LSJ
3. 1983 Linkbelt Crane - bought in 2007 for \$75K, plus \$10K paint job - recommend ask \$20K - accept \$10K /OBO - crane not certified - many jobs on STT Federal funding, so certification mandatory - boom damage at some point, rust make it probably not safe to lift more than 30 tons
4. 2003 JCB 214E Backhoe - bought in 2007 for \$47K - recommend ask \$12K - accept \$8K
5. 2003 Genie Z60/34 Boom lift - bought in 2012 for \$25K - not mobilizing on island very well - had to be pushed via lull to 5 Palms - recommend ask \$25K - accept \$18K
