Subject: B727 trip Oslo

Jeffrey,
do you think B727 trip Nov 27th to Oslo is firming up?
I'd like to arrive early with crew to test fly the Boeing before you travel on it, the #1 engine was removed and my autopilot issue supposedly repaired, ground test good, but flight test is better, since it has to do with Altitude hold. We elected to hold on removing the #3 engine to repair the bearing for Thrust reverser, since lubing the bearing rectified the stiff throttle Thrust Reverser. I will address the #3 engine during C check in February 2013.
let me know Date for 727 departure when your able?

thank you,
Larry
