Issue 3, 2013

Grab the Bull by the Horns with Wolfram *Finance Platform 2* »

Performing asset allocation? Developing front-to-back trading systems? Creating data-rich reports with live computations? Join us May 22 at the virtual seminar. Be the first to hear about the latest additions to Wolfram *Finance Platform*, including computation-driven report generation, directly from Wolfram staff.

Now Available: Wolfram Virtual Conference Spring 2013 Videos and Presentations »

Presentations and notebooks from the live virtual conference are now online. Topics covered include the Wolfram Predictive Interface, link technologies, CDF and EnterpriseCDF, Wolfram *SystemModeler*, and more.

Attend the Inaugural European Wolfram Technology Conference June 11-12, 2013 »

Wolfram is bringing together a cross section of experts, developers, and users from a broad range of fields. Get up to speed on the latest applications of our cutting-edge technology like cloud-based computation, data science, interactive deployment, and knowledge management. Join us for this two-day, two-track conference.

A *Mathematica*-Based Research Workflow »

From the beginning, the founders of biotech startup Emerald Therapeutics wanted to develop an ideal research platform that would allow for lab and process automation during experiments, as well as easy communication of their findings. *Mathematica*'s flexible programming language and interactive notebook environment made it the clear choice. Take a tour of the company's lab and see the benefits of having *Mathematica* as your core technology.

Celebrating 25 Years of *Mathematica*: Contribute Your Stories »

Nearly 25 years ago, Version 1.0 of *Mathematica* was launched. As we prepare for this milestone, we invite you to share your memories, stories, accomplishments, pictures, or any other things you have that highlight how *Mathematica* has influenced you. We look forward to seeing your feedback.
