I spoke with Anthony who suggested we purchase aluminum scaffolding and install
Rich had previously purchased scaffolding (see attached) which Ian says is not larger enough as he needs a platform (see his email below) to paint ceiling

See next email on what Ian would like to build with Michael

hi rich,
..i know the scaffolding rich barnett bought.., i use it for gold leafing the walls.
its not about being more expensive, i need a platform so i can reach the entire
ceiling somehow in one time. if i would do on the ceiling something
like a pattern., some design, then i can use this scaffolding, but i
have to do the painting i attached here.., so when you do a painting
like this at that scale(24ft X 18ft) then you need to walk around to
do drawing..etc..,i cannot work just in one spot and then move the
scaffolding and continue the lines..,
if i do the painting this way its not going to look good and its going to take
forever.., i have to go many times up and down to move the
scaffolding, besides i have to have a lots of materials with me..,

paints, buckets with water etc.,
sorry,
ion
