Subject: wave runners / Verado's

Jeffrey,

Brice mentioned that one wave runner needs engine replacement due to cracked block, Last time I rode the wave runners with Igor approximately 6 months ago, they operated well. Brice told me that one wave runner was damaged due to impact against the dock and recommends replacing with new. Brice indicates there is good resale market on St. Thomas for used wave runners, even the unit with blown engine,.

If you decide to sell wave runners, we might consider selling the two spare Verado 275HP engines at LSJ, Carlos was offered \$10,000 for both Verado's some time ago, not sure of their operating condition since they have been sitting for some time, but still worth 4 to 5K per engine as is,.

I still have one extra Verado engine in storage in West Palm Beach, I was planning to include inn Midnight Express sale, since the engines are 2005, and would be good parts engine for next purchaser,.

Let me know if you want to sell verado's and or wave runners on LSJ?

thanks,

Larry
