attached are two email from [REDACTED] on what she plans to use other foundation names (COUQ, Florida Science, Epstein Interests) for
She has not been given any of these names yet
Please advise

Hi Leslie,

They would be used for PR purposes. ie. "the J Epstein entity has just sponsored a series of events called..." The PR would be posted on blogs, press articles, his websites etc.

It would also be used to enhance his blog. Right now Jeffrey has two websites that come up on google's first page. We would like to get his blog onto the first page as well. It would be easier to do the latter by using a different foundation name.

What would be helpful is the names of all of the foundations and what each is used for generally.

ie, J Epstein Virgin Islands -- is used for local Virgin Island organizations.

thanks again,

[REDACTED]

Hi Leslie,

The more varied platforms Jeffrey has on google's first page, the better... because press links, photos, public profiles and tag lines can be added to them and given their first page status, they will pull that content up higher on Google.
