Subject: No Internet and Phones on island

Jeffrey,

Pictures will be sent later than normal as there is an issue on St. Thomas with Internet access. We have a ticket in with Sprint but they are experiencing a major outage from Puerto Rico.

Daphne is headed to her home to send the pictures as the west end of the island still has Internet access.

I am officially my former employer as of today. I am headed to the island on Monday and will be 100% focused on getting the main compound and flagpole areas completed. I will be sending you an update on Monday afternoon with an updated punch list prioritized and with completion dates for all items.

Regards,
Marc
