Hi Jeffrey,

Attached are two articles that I will get out to press today.

working on your forum.

working to get your science website: www.jeffreyepsteinfoundation.com on the 1st page. So far, you have 2 that appear on the 1st page.

Board members/ faculty listed on company websites feature prominently by search engines. Is it possible to get a confirmed list of every organization you are affiliated with -- so that I can request your name be on their website? This could be very effective.

IMDB is a film database that always comes up on the first page if one is listed on it. Have you ever financed or contributed financially to a film? If so, great because I can list you on their site.

Will send you the proposal for Reputation Changer.
