Subject: JFK fuel price

Jeffrey,

JFK fuel price \$4.60 per gallon, for Boeing only, its \$6.60 for GII. World Fuel contract fuel deal.

I am signing up with World Fuel discount program now, they offer large body fuel discounts, DC9 and larger aircraft, that are more competitive at international and high density airports such as JFK for our Boeing,.instlating the boost pump in Boeing at this time,. looking good so far,.,

GII update:

will install rudder today, elevator tomorrow, engine runs Saturday, still a lot of work to be completed, "as long as everything goes smooth",,,a BIG maybe for Saturday, completion,. gut tells me Sunday or Monday, I am concerned about rushing Gulfstream Mechs when they are installing my flight controls,.

thank you,
Larry
