Subject: business advice

hey
hope things ok with you.

wanted to see if i could find a time to pick your brain about the exciting software we have created to do brain training and the potentially monumental reach and impact it could have. there are some significant business-related issues, and i am sure you could advise.

do you have any time to chat for say 30 min tomorrow before 930am or after about 430p? or sunday? monday?

-marc
