Subject: Ugh

Since [REDACTED] arrived it has been so stressful

Am not sure what to do. He is miserable and even though he has delivered time and time again (including this time) [REDACTED] keeps jumping out in front and stealing the credit. [REDACTED] is just at the end of his rope and has taken this very very hard. [REDACTED] always sides with [REDACTED] (suspect just older friendships) and [REDACTED] won't step aside or step down.

So I think [REDACTED] has decided his last day will be [REDACTED] But he has no options or passions. He loves [REDACTED]
[REDACTED] He's not wanting to teach or write books since actually no one buys books anymore!

What next?

For both.

Feels like a great moment and opportunity buy also not.

Oh and I'm sore. Waaaah.
