Square toilets - Sorry there are so many. The ones with a question mark after the link mean I'm not certain, but maybe the two of you will prefer one of those and have better insight. So here they are:

(Really like this one, but does this have to be built in to the back wall?)

(Same model as above with back piece, probably my favorite & the version of it above too.)

(Nice lines... but too fat looking ?)

(Very modern)

(Looks "dumpy" to me. Do you see the jaw line too ?)

(Not sure about the seat... ?)
