Just got off the call with Gary. I know what he needs. If you still want to call,
[REDACTED]

Thanks,

Warwick

Jeffrey, I will speak with Gary again. We are getting mixed directions here, and I am not clear what you need.

We were asked to send the specific views from the road, as you approach the pool area. I am not sure what you mean by pulling the

plan back 50'-100'. Do you mean physically moving everything? The location is per the sketches we got.

Here's a larger view of the area, with the topos we got from Moseley, if that is what you meant by pulling back plan.

Thanks,
Warwick

gary and i have spent time on site with your drawings, your plan needs to be pulled back another 50 - 100 feet, everyone on site all agreed so far this made little sense,, due to the fact that the east north corner, almost hits the road. To date we have yet to receive even one useful document regrading this area.. please talk to gary ,, this is really silly.

Here are some PRELIMINARY images of the flagpole pool area. Ken still needs to add

more landscaping, which will help shield the views some more, but you can see the contours. We can send new views with more landscaping as soon as they are complete. It looks like we need to come up with more screening, so you do not look down the stairs to the pool.
