[REDACTED] sent you a message on JEFFREY EPSTEIN VI FOUNDATION

Subject: Old friend

Hi Jeffrey, this is an old massage therapist of yours from Palm Beach. My name is [REDACTED]. I hope you remember me. I wanted to send you a letter but figuring out the best address so that you will receive it personally is difficult. Do you read emails to this address personally? I want to send you a private letter that I don't want others to read. Could you or whomever reads this please send me a response. I hope you are well. I've been reading about your recent contributions to science and they are very interesting and impressive to me. I have a vested personal interest in [REDACTED] that I'd like to discuss with you. I want to send you this letter first explaining my situation if you could please confirm that you do in fact read the emails to this address or is there an alternate address. It is somewhat of an urgent matter. Thank you.
