Subject: SIM card

I think she has to go into an ATT. (NOT Verison) They have SIM, but I'm not sure about prepaid for iPhones... She may have to activate a month (or 2) long plan if she wants to use her iPhone. The ATT store will know more... I mapped out x2 ATT store for her to stop in when she arrived. 1103 Third Avenue @ 64th and 773 Lexington Avenue @ 61st.
