My Fellow Virgin Islanders:

**This Thursday, August 11th, between 10 and 10:30 a.m., VITEMA will conduct an operational test of the Territory's new Tsunami Siren Warning System.**

Earlier this year, VITEMA installed 10 sirens at various locations across the Territory – four each on St. Croix and St. Thomas and two on St. John. On St. Croix, sirens have been placed at the D.C. Canegata Ball Park, the Christiansted Parking Lot, on Emancipation Drive and near the Legislative Building in Frederiksted. On St. Thomas, sirens are located at the Cyril E. King Airport, Griffith Park, Yacht Haven Sugar Mill, and at the Red Hook Marina. On St. John, sirens are located at Cruz Bay next to the Legislative building and at Fire House in Coral Bay.

On Thursday morning, those within 1,000 feet or more of the sirens will hear warning tones and/or voice messages for hazards that can impact the Virgin Islands. The operational test is expected to last 15 to 20 minutes and VITEMA is making every attempt to inform businesses, neighborhoods and marine communities in the general vicinity of the sirens.

**It is important to note that this operational test is not a drill and the public is not**

**required to take any responsive action.** If a major incident were to occur during the operational test, VITEMA would immediately cease testing of the system.

However, VITEMA is asking for feedback from those who heard the sirens. Residents are encouraged to take VITEMA's online survey at [www.VITEMA.gov](http://www.VITEMA.gov), post comments on the agency's [Facebook](#) page or send a tweet to @readyusvi. Residents can also call VITEMA's offices on St. Croix at 773-2244, on St. John at 776-6444 or on St. Thomas at 774-2244.

Finally, I encourage you to visit [www.VITEMA.gov/tsunami](http://www.VITEMA.gov/tsunami) to view additional information about the territory's Tsunami Siren Warning System including an interactive map of the siren locations.

Thank you for taking a moment to read about this important test.

Sincerely,

John P. de Jongh, Jr.  
Governor
