Subject: RE: Condenser water piping proposal

Mr Epstein the chiller proposal is going to take so time ,I just had a walk through today with the electrician for the power supply portion of the project. Tomorrow the cooling tower representative for BAC is scheduled to see the cooling tower and sump. We had the master rigger & pipe fitter yesterday review the scope of work. We have AD Winston doing a design build so after all the trades give their feed back we will be presented an accurate proposal by AD .Winston. This is a process we do not want to rush , it is important to be very thorough at this stage of the project. Please be patient Richard.

Hi Richard,
Attached please find our proposal for installing condenser water piping for the Trane IT room a/c unit as per your request.

Thank You,
Mike
