Subject: Re: Nicolas/hanger/FBO

Thanks Jeffrey, I do appreciate his flying skills and always feel safe when he fly you, that's the most important item.

I totally agree and hopes he is able to start his FBO deal, to compete with Hancock for all of us to benefit, at the end of the day, my priority is the cleanest fuel that we purchase, and I do like Hancock's fuel farm and filtration system, compared to an old fuel trucks like Execujet uses, but either way its to our benefit, if Nicolas becomes a competitor in fuel price on STT to Hancock. I feel pretty confident we will get our approval for a fuel truck when we become tenants of Port Authority on the field. If its our truck, I know it will be in the best possible condition with new water and debris filtration installed.

thank you,

Larry

Jeffrey,

The person Rod mention in his email that he was giving the office to is named: Stone,, he is a "local guy". Nicolas told me that Stone was going to take the office anyway if Rod didn't give Air Center employees severance, Stone is in the Thug category. Since then, Rod has agreed to give Stone the office in exchange for cleaning the hanger and moving the generator and installing it at Rod's house in STT and looking over his house. Rod conveyed this deal to Stone, and all are aware of this possible deal.

Since Rod is willing to sell the office to us and give Stone some of the money in exchange for taking the office, Nicolas told me that we shouldn't give Rod the money and just give it to Stone, and not tell Rod, this way Rod wouldn't be able to take a portion of the money. Nicolas thought that the money should be split between himself, Maria, Stone, and Yens the other Air Center helper. its complicated, but wanted to share this with you, it just emphasizes Nicolas's loyalty to Rod,,and what a shady person he really is.

I think I mentioned Rod had to install GPS tracking devices in his helicopters to make sure Nicolas wasn't moon lighting with his machines,.

I really don't think Nicolas having access or sharing our hanger is a good idea,,in the past, Nicolas would let all the Air Center employees paint, repair and overhaul their cars, and all their friends cars, just like Cleo, and tonight Nicolas mention to me, he would let Stone work on his car in the hanger if he had control of the hanger,.

FBO: Nicolas told me his fuel price that he was able to negotiate was \$4.42 to 4.45 per gallon, Nicola's brother in law named "Kiki" owns a gas station and parts store in STT, and has fuel connections, nothing that we couldn't do our self. Currently our price with Hancock is \$5.15,, he will discuss all of this with you on Sunday in your meeting with him, just giving you advanced info,. I told Nicolas my personal concern was liability of selling Jet fuel to the public and our exposure to fuel contamination, such as water or sand in the fuel, from retail sales,. Nicolas is going to ask you to be a partner in this venture, even though he mentioned he is willing and able to do it by himself,,without your financial backing,.

I arrive in STT Saturday at 3:40pm

thank you,
Larry
