Dear Ms Boone,

Thank you for your kind words and your and Alan's invitation. I am honored to accept. Please convey my gratitude to Alan.

I look forward to talking over the phone and learning more about the Festival along with your and The Atlantic's mission. Might you be available to talk tomorrow afternoon?

My contact information appears below.

Yours,
Mark

Dear Dr. Tramo: I am writing at the suggestion of Alan Fletcher and others given your work in the area of music and the brain. By way of introduction, my name is Kitty Boone and I direct a significant conference here in Aspen, Colorado as part of the Aspen Institute known as the "Aspen Ideas Festival" (www.aifestival.org). This summer we are going to look at diverse aspects of music and its influence today - and are quite eager to host a presentation or discussion on the subject of music and neurology. Alan assures me that you are IT. We have tried to find the right place to forward this; perhaps now this will get to you.

I would be delighted to call you and discuss this, though I appreciate the limits on your time. I attach a formal invitation and can certainly answer any questions. This should be a provocative and interesting set of discussions.

My best, and thanks so much for considering this invitation. We can host you for just a day if that is all the time you have!

Kitty Boone

Vice President, Public Programs

The Aspen Institute
