OK, but you don't really answer my question :

I understand the 65" for your bedroom + Wireless HDMI

For the other screens, do we do the same, or use old analog cables, or put B&O TV with
bluray dvd included

Thanks for your answer

1. We change the TV and DVD, but we still use analog cable (it will still be good quality)
2. We use wireless HDMI transmitter (approx 1000€), I think it worth it for home theatre, but maybe not for guests bedroom
3. We use B&O TV with bluray dvd included. Yes it is more expensive than other, but more beautiful too. Everything in one box. Only one remote control. 14000 € / each 40'' inches. For your bedroom we could go up to 55 inches if you want.

Hi Philippe,
Jeffrey's comments are as follows:

"no sonos in guest rooms,.. use only mac for music storage, no server.. why
can we not run new cables? I will need to hear the new
speakers but sounds like a good idea"

On Feb 8, 2011, at 11:40 AM, Philippe Laznowski wrote:

Dear Sarah,

We went to Mr Eptein's apartment
last week and made a complete
overview of the system.

Before finalizing the estimate we
would have a few question, could you
please transmit them to Mr Eptsein.

Music

Sonos system is really the best
because it can work wireless. We
counted all the zone where you
already had an audio access keypad.
But in some bedrooms there are small
hifi systems.

Do you also want to replace them by
sonos. Or maybe later ?

Do we use the music stored on you mac
(it means it has to be on to listen
to music, or do we propose a
standalone server (1500 €) ?

For the speakers, the small JBL that
are on the floor in the living room
and office look very small for those
rooms. Would you like us to propose
Floor standing speaker (like B&O,
because good sound and good looking)

<image001.png>

Home Theatre

Since we can't run any new cable
we'll try Wireless HDMI on the new
projector. So we will also have to
change : DVD, Receiver, Screen (for a
16/9)

We'll use your ipad to control It

No question about the home theatre

Guest bedrooms + Master

Cables between TV and DVD are poor.
Impossible to run new cables so 2
options :

1. We change the TV and DVD, but
we still use analog cable (it
will still be good quality)
2. We use wireless HDMI
transmitter (approx 1000€), I
think it worth it for home
theatre, but maybe not for
guests bedroom
3. We use B&O TV with bluray dvd
included. Yes it is more
expensive than other, but more
beautiful too. Everything in
one box. Only one remote
control. 14000 € / each 40''
inches. For your bedroom we
could go up to 55 inches if you
want.

Let me know what you prefer

Thank you for your answers it will
allow me to finish the estimate

Best regards

Philippe

Hi Philippe,
Tomorrow is good for you to go to the
apt. around 10am. Can you please
confirm you will still be going at
this time. Thank you
I will make sure Valdson, the
apartment manger is there to meet
you.
Best,
Sarah
