I hope that you sleep well now. Today I spent the whole day does not let go of my phone from my arms when I saw that I missed your call. Even when I was with my friend. She has problems with her boyfriend and she is now depressed. I was hoping you call again. I do not know if I can call you. But I love even the shortest your voice messages. I do not delete them, and sometimes I listen when I want to hear your voice. It makes me smile. I imagine you. I see you sitting at the table in front of your computer in glasses as usual. Serious and busy. With kind eyes but prickly mood. I want to hug you but I can never do it. You become more and more inaccessible to me. And I still dream to sleep with you. I hope you have fun now with your new doll, and fresh hot air.

I kiss you tenderly.

p.s.I think it would be very nice if, instead of her voice is a saxophone. Also, the song I associate with you.
