Next week to confirm century links proposal, this will eliminate microwave link
4.5 Mbps dedicated service
Will require fiber from route 41 demark
To ranch central
Ranch central will require pulling of cat 6 to all locations if ip phone solution is
to be installed
Looking into simpler cost effective solution ie cell repeater satellite etc
Not a priority
Main house infrastructure in place
It's a simple fix
3 week lead time

I recall that we were supposed to connect to either copper or fiber. but we were
not yet there.. statuts.. 2. why wait for ranch central. ?

Craig

as discussed this is the proposal for the install of the new phone system at the Main House,
will address ranch central at a later date

there will be a need to convert all phone jacks from analog to data ports and reconfigure
the phone block to accept new switch which is all very labor intensive
3 week lead time for equipment, but work could start before then
any concerns please let me know
