Dear all,

Well, one should never disobey a lady, and so may I express my interest in the get-together that [REDACTED] suggested?

I am indeed in [REDACTED] until next Thursday, but it's probably short notice for all of us -- plus my head is so full of relocation logistics that I won't be much good on real topics! My next visit is June 9-14, and I will then be in NY for good after July 3.

[REDACTED] I agree with you (as usual) on the [REDACTED] issue... and happy to lend a hand where appropriate/helpful. I understand that some consultants might already be on it... beating those around is a favourite pastime of mine (I can say this, having been one myself many years back).

All the best, and looking forward to connecting --

[REDACTED]

Hi [REDACTED]

So sorry that I missed [REDACTED] meeting last week. It would be fun to hang out.

Glad that you met [REDACTED] a very close friend and [REDACTED] knew that you two would click well.

Terrific that [REDACTED] also made an introduction to Jeffrey. We should meet sometime soon (I think you will be spending significant time in [REDACTED]).

You might want to think organizing a session on [REDACTED] mechanisms in [REDACTED] 2012.

This is something we have been thinking a lot. And as you know [REDACTED] is preparing a report for [REDACTED] meeting later in year.

Let's talk soon in more details,

Again – sorry that I missed last week!

All the best

[REDACTED]

Hello to the three of you.

[REDACTED]

I am constructing my very own Venn diagram between you guys....I think the overlap space has potential.

There is perhaps quite a lot for you to discuss relative to the ideas around [REDACTED] and Lord knows, probably math and physics too.

Not sure of everyone's travel plans but I recall that [REDACTED] may be in NYC next week.

I've mentioned this introduction to each of you separately but figured that a formal linkage was the best next step.
