Subject: Diablo/ Ranch update

Mr. Epstein,

I just wanted you to know that I have found a home for Diablo. It is with a family and they sound excited to have him.

This leaves us 2 guest horses for trail rides and 1 horse for one of the boys to ride as a escort. I will ride my horse Blue to escort and give lessons from.

As requested all other animals are off Ranch.

This cuts our feed bill and expenses for livestock in half.

I have researched the cost of hay from 4 sources and find that the usual supplier has the best price and quality. This price is \$7.50/bale of alfalfa hay delivered and all others are from \$9 to \$12.50 delivered. (I have purchased from them for 12 years for myself and 6 years for you). I have requested from [REDACTED] to use one of the 4 checks on the Zorro acct I have been left but have not been given a response. I would like to purchase 200 bales of alfalfa at this time.(\$1,500.00) I would like to purchase grass hay as well but am not pleased with prices and will continue to find a better price.

I have also suggested that our horse shoer(farrier) cut back his visits from every six weeks to every at least 8 or 9(saving us between (\$600 and \$900 annually) but this did not fly with

[REDACTED]??

We finally received a hurricane like rain storm on Sunday night. It flooded into the office, laundry/bathroom, supply room and tack room of Stables. Nothing was damaged - just a lot of mopping up. Mano and Steve have put in new culverts and worked the ground so that the waves of water won't that come down the hill won't jump the road and do that again.

The lightening/conductivity from the storm took out a relay connector at well B. Mano has ordered the part and a spare and will fix as soon as it is here.

There are 5 phone lines that are not working as well(all at Ranch Central). Paul with Val Comm has been out to try and figure the problem. Apparently it has to do with things on the mountain where our phone lines come from.

All is well up at the Main House. The rain/hail was not as vengeful up there.

Hope all is well
Wendy
