Ok great ,,,,I'll check, on crew preclear,.

I believe I've ask that before and we all have to go together,

Sorry missed je's two calls,. I was on the phone with jet center, roy and customs,.

I'm up and hitting the shower now, I'll be at plane at 9:45am

-put ice in drawer, ice in small crew cooler, preflight again, since I walked and fueled last night, we always look again before take off, in case something happen to plane last night, check wings for damage, in case somebody would have taxied and bumped our plane and didn't say anything, that's what I'm looking for on a secondary preflight before we fly,

See you soon.

If you get there before I do, crank apu, put apu alternator on, Essential bus on, check battery's are charging and get V speeds set, get ATIS and clearance copied!

Thx,

FL

Ok, Supercaptain. I'll come anyway and at least fluff the pillows and write down the reporting points if there is nothing else left to do :)

He asked if crew can pre-clear before he gets there ...

Hi, Chief.

I will leave Isj at 8.45 to come to the airport. Do I need the 3 copies of medical and pilot license or was that just for the 1st time?
