Subject: flt time st barts heli flight

Jeffrey,

winds are forecast to be 20kts out of east, North east, Thursday wind forecast is 16 kts gusting 26kts, if you average 18kts of head wind, flight time

STT - St Barts is 1+24min,.

STT - St Martin is 1+15min based on 18kts head wind,.

deduct -6 min, if we depart from LSJ,.

Nicolas told me it is turbulent and gusty ride conditions, you will not like the ride, Nicolas comments for the record. wind is expected to calm down by friday, but still 15kts, maybe not as gusty,

thank you,

Larry
